

WE'RE HOLDING PRICES FOR THE 3RD YEAR IN A ROW!

Brothers Printing offers savings to COATS users!

Start preparing now for the 2010 W2 season at 2007 prices!

Have COATS help determine how many W2s you will need.

The Employee W2 Count is used to predetermine the number of W2s that will be required at the end of the year. The COATS report generates an estimate and the user should account for multi-localities as well as new hire from present to year-end. COATS estimates a W2 Form per Employee's Locality. The user may wish to order more than the number returned, to account for new Employees working in the fourth quarter and to account for printer jams, etc.

EMPLOYEE W2 COUNT

To estimate the Employee W2 Count, perform the following steps:

COATS - STANDARD

1. Click Reports in the COATS Main Menu.
2. Click Employee Reports, W2 Count.
3. A screen will appear with number of W2s required.
4. Note the number of W2 Forms and click OK.
5. **Perform the above steps on all databases.**
6. Remember to order more than the amount returned, to account for new employees working in the fourth quarter, lost or misprinted W2s.

COATS - SQL

1. Click Payroll in the COATS Main Menu.
2. Click on W2 Count.
3. The "Choose Any Date in the Year to Count" window will appear. It defaults to Today's Date.
4. Note the number of W2 Forms and click OK.
5. **Perform the above steps on all databases.**
6. Remember to order more than the amount returned, to account for new employees working in the fourth quarter, lost or misprinted W2s.
